

**WHO is Coalstoun Lakes Water (CLW)** - a not-for-profit community organisation run by volunteers for the sole benefit the local community and economy.

**WHAT is our purpose?** - We were set up to explore the potential to bring water to Coalstoun Lakes and surrounding areas following a \$1.5million Commonwealth grant for a detailed business case (DBC) following the 'Just Add Water' campaign. The DBC will explore a number of options for supply shortlisted in a recently completed report by Jacobs Consulting prepared for North Burnett Regional Council.

**HOW will the DBC be conducted?** - We aim to engage with all interested stakeholders to ensure that their opinions, needs and concerns are considered. This will include confidential 'one-on-one' interviews to assess the potential demand for water, pricing preferences and other needs such as assistance for irrigation development.

**WHO will be doing the study?** - CLW has engaged **Verterra** to project manage **JACOBS** who will undertake the study on behalf of CLW. All three organisations will engage openly and inclusively with all stakeholders during the study.

**WHEN will it commence?** - We hope to make contact with you in coming weeks and invite you to further informative events at the Coalstoun Lakes Hall. The DBC study is scheduled for completion by the end of 2021.

**HOW can you find out more?** Register for our upcoming community meetings by contacting us on:
